## Digital Signage formats

### Windows Media Video (.wmv)

The Windows Media Video files include a video presentation with all slides and transitions. This can be played as a video on a loop/repeat from a computer. If you have a content management system such as DVC or ClickView you can use the Windows Media Video files to play through your system.

### PowerPoint Slide Show (.pps)

The PowerPoint show includes slides from the digital signage presentations. The show is set on loop and automatically transitions to the following slide. You can pause the show if you require still images on your screen.

Congratulations you are now ready to use your Digital Signage Encourage Reading Starter! We hope you love the brilliant colours, movement, messages and simplicity of this product.
